SKILLS

Junior Developer with a back-end focus, currently completing a Computer Science degree in Java programming. Experience building Spring Boot applications and working with relational databases. Known for clean code, strong communication, and being a reliable team contributor—someone who shows up every day, meets deadlines, and keeps projects on track. Actively seeking junior developer roles to grow within a collaborative team environment.

- ❖ Object oriented programming
- ❖ Java, Python, C++
- ❖ Spring Boot & REST API Development
- ❖ Git & GitHub Version Control
- ❖ SQL & Relational Databases
- ❖ Front-End Basics: HTML & CSS
- ❖ Team Communication & Collaboration
- ❖ Reliable Follow-Through
